

# Triumph Sheets October Newsletter

## Family Fun Day!

Thanks to the Retention Team for our wonderful Sunday afternoon! We had a great turnout. To the left are the 1st place winners of the corn hole contest (Coty & Brit)! Great competition between the 18 teams that competed.

Looking forward to next year. Start practicing for next year's contest.

# Triumph Sheets HazRec Updates

Keeping powered industrial trucks and pedestrians separate is a challenge in all industries. Most of the severe injuries come from powered industrial trucks. We have since identified these areas and are working to quickly improve.

One improvement made is a SafeT light added in the roll room that signals when moving objects meet. Allowing for better visuals when approaching blind spots. This is much more effective than the dome mirror approach. Shout out to the maintenance team for getting this up so quickly!

# MONTHLY SAFETY TRAINING

**SAFETY  
FIRST**

Our monthly safety training is focused on not taking shortcuts. This video comes from a worldwide speaker. He experienced an unfortunate event, due to taking a shortcut, while he was covering a night shift position. A lot of people run into wanting to do the "right thing", but tend to put safety last.

We have a motto here at Triumph Sheets and TVC. It is "Safety, Quality, Speed," in that order every time. This would be a great video to share with the family.

His primary messages are "Safety is about going home at the end of the day, kissing your wife and hugging your kids", and "We are each responsible for our own safety."
