# TRIUMPH SHEETS

What a great turnout for Triumph Sheets' 2nd annual Fantasy Football Tournament! We want to thank everyone who came and those who are participating good luck with your lineup. Dilly Dilly House Cat is looking for another big win.

# SPLICING CHALLENGE

Have you heard about our new splicing challenge for our wetend operators? We want to recognize our talent here at Triumph when an achievement is met based on the ground rules set by the (team) operators will get a jersey with bragging rights for being proficient in splicing.

## GROUND RULES....

Gold Stars will be awarded to operators who have gone the entire month without missing a splice.

Blue Stars will be awarded to operators who didn't fail a single CTQ audit quarterly within that quarter.

Once an operator completes either achievement, they will be given a custom jersey with tier name embroidered on the back

Briton Helton rocking the new splicing jersey. One of the few employees who have achieved the goals above.

Looking forward to seeing more of these around the plant. As we all know Triumph Sheets employees love a good challenge!

# CONVERGENCE

## OUR DUTY TO KEEP SAFE!

Each month we provide computer-based training to our employees from new hires to leadership. We want to ensure safety is part of our routine. Keeping the team updated with new safety guidelines each month is how we stay proactive along with inspections, evaluations, and management tools to put in work orders to get action items fixed.

”

“The safety training we do here at Triumph is above all first and foremost. We stay on top of all safety issues by our safety team being involved in all aspects of the plant. Everyone here all wants to go home to their families after every shift so doing our safety training modules monthly and our safety meetings is our utmost priority.”

## Top 10 Most Cited Standards

FY 2022

## Machine Guarding

Machine guarding continues to be an OSHA top Ten Violation as of 2022. Many companies struggle with ensuring employees are properly trained and keeping guarding on the machines. We have provided a proactive fix for both issues here at Triumph / TVC. We have annual machine guarding audits and annual training to comply with OSHA's strict standards. We go above the rest to ensure a safe work environment is provided.

# TRUNK OR TREAT

Details to  
come!! Look for  
sign up in  
breakroom.

October 2023

## SEE YOU THERE!
